Hello!
On Thursday, January 24, the Elementary School assembled to honor the Students of the Month and learn the power of “hello”.

After the Students of the Month presentation, the stage curtains parted to reveal a puppet show featuring Mercedes, Carol, and Mr. Broccoli. With the help of students and staff, Mercedes and Carol were able to help Mr. Broccoli understand that just looking and smiling at someone can make a big difference.

Mrs. Brown challenged the students to make connections through kindness by greeting each other with a look, a smile, or even better, a “hello”.

Congratulations
 to the boys basketball teams who, through their hard work, raised $5,700 to be shared by Ronald McDonald House Charities of Rochester and Cure Childhood Cancer.
Find your 10 friend

Students in Mrs. Gardener’s Kindergarten class are honing their math skills by finding their “10 friend”.
Great counting, everyone!

Creativity on display

Mrs. Auer's 7th grade students presented their original, hand-made masks in class. These imaginative and impressive creations encompass everything from realistic renderings of animals to fantasy creatures to the macabre and are on display in the 7th grade wing.
No time for breakfast? We have you covered.

The Jr./Sr. High School has a new breakfast option. Instead of going through the traditional cafeteria line, students can now stop by the Grab & Go cart in the front foyer outside the main office. This new option allows students who may not have time to sit down and eat in the cafeteria to have a bagel, yogurt, or a piece of fruit to take with them.

“It’s easy of you are running late or need to meet with a teacher before class,” says School Lunch Manager Mary Della Penna. “This gives more students the flexibility to start their day with breakfast.”

Students use their pin number just as they would in the cafeteria line. The cart is open from 7:10 to 7:45 a.m.

“Study after study shows that kids who eat breakfast function better,” says Marcie Beth Schneider, M.D., FAAP, a member of the American Academy of Pediatrics’ Committee on Nutrition and adolescent medicine physician in an article for healthy-children.org. “They do better in school, they have better concentration and more energy.”

Traditional breakfast options are still available in the cafeteria.

Reminder:
Registration now open for 2019-2020 Universal Prekindergarten and Kindergarten
