Change Your Notification Settings for Posts

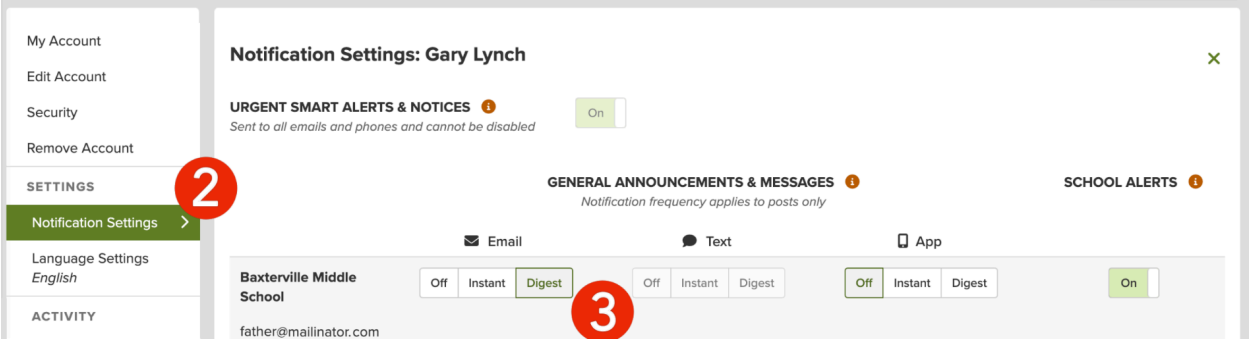
You can customize your post notifications based on type and delivery method.

- **Instant**: sends all post notifications in real-time.
  - This is helpful if you need notifications for after school activity day of changes
- **Digest**: sends all posts for the day in one single digest at the end of the day
  - This is helpful if you have multiple children and receive numerous messages daily and want to limit that

Posts sent as immediate, as well as direct messages and alerts, will still be delivered instantly. For more on notification settings or to watch a video, click here.

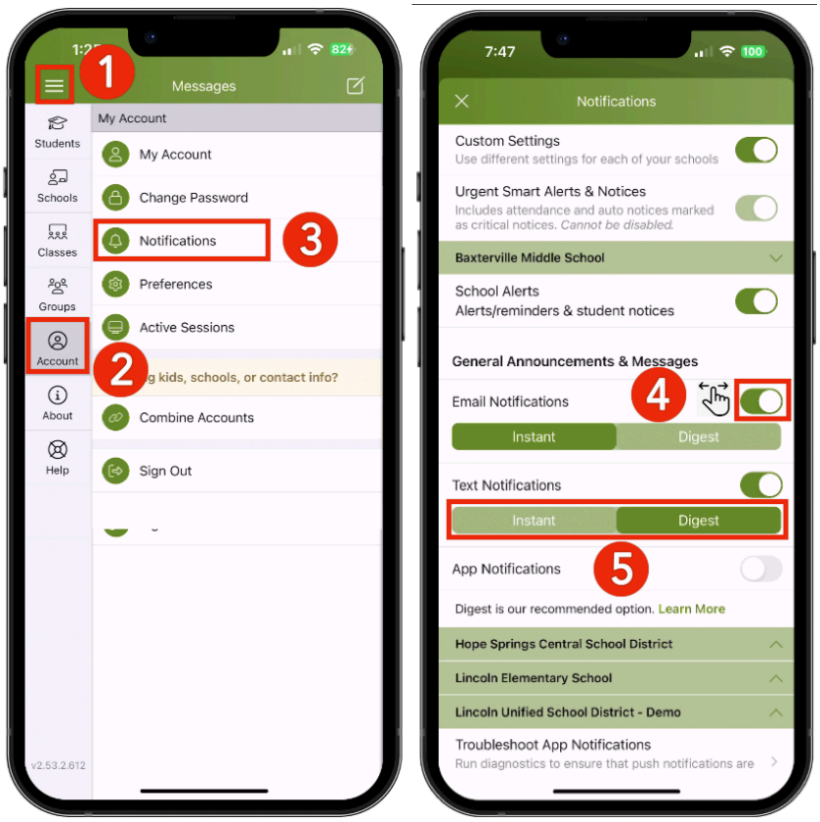
Browser

- From **Home**, click your name in the top-right corner and select **Manage Account**.
- Select **Notification Settings** on the left.
- Choose your preferred Notification Settings for General Announcements & Messages (Off, Instant or Digest) and School Alerts (On or Off).



Mobile App

- From Home, tap the **Menu** (triple bars) on the top left.
- Select **Account**.
- Select **Notifications**.
- Use the toggle to turn on or off notifications by email, text and app.
- Select **Instant** or **Digest** for each mode.



Note: If you have multiple phones or emails listed in your account, you may set the order of your preferred contacts to receive notifications. Notifications will only be sent to one email and one phone on your account.
