The School-Community Partnership Award

Do you know a student who contributes in a special way to our community? Or a student who has achieved, persevered, or has contributed a tremendous amount of work to add in a positive way to the Byron-Bergen School Community? How about a student who serves as a role-model or mentor in a special way?

Please take the time to nominate a Jr./Sr. High School student to receive the special recognition of “School-Community Partnership Award.”

The Jr./Sr. High School Collaborative Improvement Team offers this award to recognize students for their achievements outside of the classroom and in their community. A nomination form is attached.

- Two students will be chosen each semester
- Students will be recognized in school and in the district “Focal Point” publication
- Students will receive a special lunch catered by a local restaurant during their school lunch period

Thank you for helping the Byron-Bergen School Community to “Challenge, Engage, and Nurture” our students in our commitment “to fostering ethical standards and strong character.”

Byron-Bergen Jr./Sr. High School
Collaborative Improvement Team
